This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

**Class B GBP Shares of Leadenhall UCITS ILS Fund Plc (the “Fund”) (ISIN: IE00BYTQ6N18)
The Fund is managed by Waystone Management Company (IE) Limited (the “Manager”)**

Objectives and Investment Policy

The Fund’s objective is to achieve absolute return for investors.

The Fund will invest primarily in catastrophe bonds and other securities, payments on which are linked to insurance payouts as a result of natural or non-natural catastrophic events. These include earthquakes and windstorms, and other mortality and catastrophe-related events.

The Fund may also invest in liquid assets and retain a proportion of its assets in cash and deposits.

The Fund may use futures and options relating to weather or insurance indices for investment purposes and for the purpose of hedging risks.

The Fund may be leveraged up to 100% of its net asset value.

The Fund is actively managed without reference to an index and the investment manager of the Fund has discretion to manage the Fund in line with its investment restrictions.

The Fund measures performance relative to the money market funds rate of return on collateral + a no-loss net return of 8% to 8.50% per annum. This figure is quoted net of fees and expenses and assumes no losses. The expected loss guidance per annum is 2% to 3%.

The minimum initial subscription is GBP equivalent of US\$5,000,000 (or staff investment) and the minimum subsequent subscription is GBP equivalent of US\$1,000,000 (or staff investment).

Investors can buy and sell shares on at least two occasions per calendar month.

Income generated by the Fund will be re-invested and reflected in the price of shares in the Fund.

Transaction costs associated with investments in the Fund may have a material impact on the performance of the Fund.

- This indicator is based on the historical performance of the Fund and may not be a reliable indication of the future risk profile of the Fund.
- The risk category shown is not guaranteed and may shift over time.
- The lowest category does not mean “risk free”.
- The Fund is rated, in accordance with the applicable calculation methodology, as category 4 and is therefore rated as having a low to medium risk return profile due to the historical performance of the Fund and the various risks that the investments of the Fund may be exposed to.

Below are the risks that you should be aware of that may result in a loss or reduction in the value of your investments. These risks are not exhaustive. Potential investors should consult the prospectus and their professional advisers before investing in the Fund.

Market Risk: Investments are subject to normal market fluctuations and the risks inherent in investment in international securities markets.

Liquidity Risk: Risk of holding assets that cannot be easily traded in the market.

Counterparty Risk: Risk of material investment exposure through contracts with a third party.

Currency Risk: Fund assets in currencies other than the base currency of the Fund may expose the Fund to a loss if the currency of those assets falls relative to the base currency of the Fund.

Derivatives Risk: The use of derivative instruments by the Fund can potentially increase the volatility of the Fund by increasing its sensitivity to market and counterparty risk.

Charges for this Fund

The charges you pay are used to pay the costs of the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest:
